DELI CONTAINERS

Deli containers provide a convenient and dependable packaging solution for a wide range of food products.

Designed for both storage and display purposes, they are commonly used by delis, supermarkets, bakeries, caterers, restaurants, and takeaway outlets.

The range is available in two material options to suit different applications:

KEY FEATURES

- ✓ Crystal clear for excellent product visibility
- ✓ Secure fitting lids for safe handling and transport
- ✓ Suitable for a wide range of cold food applications
- ✓ Available in multiple sizes and configurations
- ✓ Manufactured from high-quality PET or PP materials
- ✓ Ideal for retail display and takeaway use

MATERIAL OPTIONS

01 PET DELI CONTAINERS

- Exceptional clarity
- Premium shelf presentation
- Ideal for chilled and cold food applications
- Recyclable material

02 PP DELI CONTAINERS

- Durable and versatile
- Suitable for hot and cold foods
- Microwave-friendly options available
- Cost-effective solution

BAKERY CONTAINERS

Bakery containers are specially designed packaging solutions that combine product protection with attractive presentation.

Manufactured from clear, food-safe materials, they allow customers to easily view the contents while helping to preserve freshness and maintain product quality.

Suitable for a wide range of baked products, including cakes, pastries, muffins, donuts, biscuits, and confectionery, these containers provide a secure and hygienic packaging option for bakeries, supermarkets, cafés, and food retailers.

Their sturdy construction helps protect delicate baked goods during handling, transport, and display, ensuring products reach customers in excellent condition.

KEY FEATURES

- ✓ Crystal clear for maximum product visibility
- ✓ Secure fit lids to protect freshness
- ✓ Strong, durable and impact resistant
- ✓ Food-safe materials for safe packaging
- ✓ Perfect for display, storage and transport
- ✓ Lightweight, stackable and space efficient

DRINKING CUPS & SIP LIDS

Drinking cups and sip lids provide a practical and reliable beverage packaging solution for both hot and cold drinks.

Manufactured from durable food-grade plastic, the cups are designed for strength, convenience, and ease of use across a variety of food service environments.

The accompanying sip lids fit securely onto the cups, helping to minimize leaks and spills while allowing consumers to drink comfortably on the go.

This combination makes them ideal for coffee shops, cafés, restaurants, convenience stores, events, and takeaway beverage services.

KEY FEATURES

- ✓ Crystal clear for excellent beverage presentation
- ✓ Secure fit lids to reduce leaks and spills
- ✓ Durable and crack-resistant construction
- ✓ Suitable for hot and cold beverages
- ✓ Food-grade materials for safe consumption
- ✓ Lightweight and convenient for on-the-go use
- ✓ Recyclable and environmentally responsible

PRODUCE CONTAINERS

Produce containers are specially designed packaging solutions for the storage, transport, and display of fresh fruits and vegetables.

Engineered to help maintain product quality, these containers promote proper airflow around the contents, supporting freshness and extending shelf life.

Ideal for retailers, supermarkets, farmers, packhouses, and fresh produce suppliers, they provide a practical and hygienic way to present and protect fresh products while reducing the risk of damage during handling and transportation.

KEY FEATURES

- ✓ Crystal clear for excellent product visibility
- ✓ Ventilated design promotes airflow to keep produce fresh
- ✓ Strong and durable construction for protection
- ✓ Secure closure reduces the risk of tampering and spillage
- ✓ Lightweight and easy to handle
- ✓ Recyclable and environmentally responsible

PROTEIN TRAYS

Protein trays are purpose-built packaging solutions designed for the secure storage, display, and transportation of fresh protein products, including meat, poultry, seafood, and processed protein items.

Manufactured to provide strength and stability, these trays are capable of supporting heavier products while effectively managing moisture within the packaging environment.

Widely used by butchers, supermarkets, food processors, and retailers, protein trays help maintain product integrity, enhance presentation, and support hygienic handling throughout the supply chain.

KEY FEATURES

- ✓ Strong and rigid design supports heavy products
- ✓ Effectively manages moisture for product freshness
- ✓ Maintains product integrity and reduces leakage
- ✓ Crystal clear for enhanced visibility and appeal
- ✓ Secure stacking for efficient storage and transport
- ✓ Food-grade materials for safe packaging
- ✓ Recyclable and environmentally responsible

IDEAL FOR

GERMINATION TRAYS

Germination trays are specially designed growing trays used to support the successful propagation of seeds and young plants.

Featuring multiple individual cells or compartments, these trays provide an organized and controlled environment that promotes healthy root development and consistent seed germination.

Commonly used in nurseries, greenhouses, agricultural operations, and home gardening applications, germination trays help optimize growing conditions while simplifying planting, monitoring, and transplanting processes.

KEY FEATURES

- ✓ Multiple individual cells for optimal seed development
- ✓ Promotes healthy root growth and strong seedlings
- ✓ Well-draining design prevents overwatering
- ✓ Durable and reusable for long-term use
- ✓ Lightweight and easy to handle
- ✓ Suitable for a wide range of seeds and cuttings
- ✓ Food-grade, BPA-free plastic for safe plant growth
- ✓ Recyclable and environmentally responsible

IDEAL FOR

NURSERIES &
GREENHOUSES

AGRICULTURAL
OPERATIONS

HOME GARDENING
& HOBBYISTS

LIDDING FILM

Our lidding films are engineered to provide a secure and reliable seal for packaged products, helping to maintain freshness, protect product integrity, and enhance food safety.

The tamper-evident seal offers added consumer confidence while safeguarding contents from external contaminants. Designed for a wide range of food packaging applications, these films assist in preserving product quality throughout storage, distribution, and retail display.

By helping to maintain optimal packaging conditions, they contribute to extended shelf life and improved product performance across the supply chain.

KEY FEATURES

- ✓ Strong and reliable seal for product protection
- ✓ Tamper-evident seal for consumer confidence
- ✓ Excellent barrier properties to maintain freshness
- ✓ Suitable for a wide range of food packaging applications
- ✓ Clear print quality for branding and product appeal
- ✓ Compatible with various tray sealing machines
- ✓ Food-grade materials for safe contact with food
- ✓ Helps extend shelf life and reduce food waste
- ✓ Recyclable and environmentally responsible options available

PACKAGING TRAYS

Our packaging trays are engineered to protect and preserve product quality throughout storage, transportation, and retail display.

Designed to support product freshness, they help maintain the appearance and integrity of packaged goods for longer periods.

With a clean and professional presentation, these trays enhance shelf appeal while providing practical protection against damage and product loss.

Their efficient design contributes to reduced waste, improved handling, and a better overall customer experience.

KEY FEATURES

- ✓ Protects product quality during storage and transport
- ✓ Helps maintain freshness and product integrity
- ✓ Enhances product presentation and shelf appeal
- ✓ Strong and durable for reliable performance
- ✓ Resistant to moisture and temperature changes
- ✓ Available in various sizes and configurations
- ✓ Compatible with sealing films and lidding solutions
- ✓ Food-grade materials for safe packaging
- ✓ Recyclable and environmentally responsible options available

PACKAGING LABELS

In addition to our packaging solutions, we offer high-quality custom label printing tailored to your brand and product requirements.

Our labels are designed to enhance product presentation, strengthen brand recognition, and provide essential product information in a professional and visually appealing format.

Whether you require labels for food packaging, deli containers, bakery products, fresh produce, protein trays, beverages, or retail products, we can manufacture labels in a variety of sizes, shapes, materials, and finishes to suit your specific application.

From simple product identification labels to full-colour branded designs, our custom labelling solutions help your products stand out on the shelf while ensuring compliance with industry and retail requirements.

KEY FEATURES

- ✓ High-quality printing for crisp text and vibrant colours
- ✓ Enhances brand identity and shelf appeal
- ✓ Durable and smudge-resistant for reliable performance
- ✓ Suitable for a wide range of applications and environments
- ✓ Available in various shapes, sizes, and finishes
- ✓ Food-safe materials compliant with industry standards
- ✓ Strong adhesive options for secure and lasting application
- ✓ Custom designs to meet your branding and information needs

IMPORTANT INFORMATION

1. PRODUCT INFORMATION

The products featured in this catalogue are presented for informational and marketing purposes only and are intended to showcase our packaging solutions and product range.

Product specifications, dimensions, colours, and availability may vary and are subject to change without notice.

2. PRICING

Our current price list is available upon request.

Prices may vary based on order quantities, material availability, supplier adjustments, and prevailing market conditions.

3. ORDERING REQUIREMENTS

An official purchase order number or written order confirmation is required before any order can be processed, manufactured, or dispatched.

4. LEAD TIMES & DELIVERY

Standard lead times are typically between **1 and 7 working days** from receipt of a confirmed order, subject to stock availability and production requirements.

Delivery timeframes may vary depending on product availability, order volume, custom branding requirements, and delivery location.

5. CUSTOM BRANDING & PACKAGING SOLUTIONS

Custom branding, labelling, and packaging solutions are available on selected product ranges.

Please contact our sales team to discuss your specific requirements and obtain a tailored quotation.

6. CONTACT US

For pricing, stock availability, custom branding requirements, product specifications, or delivery schedules, please contact our sales team.
